

Blueprint for OASIS Accuracy: Transition to OASIS-C

Spend **two intense and fun days** learning all there is to know to collect the **OASIS-C** accurately. Understand the specifics of the new items, changed items and process measures. Learn what you need to know about changes to data collection rules and conventions.

Educational Goals:

- To support the educational needs of home health clinicians in achieving comprehension and accuracy in OASIS data collection using guidelines established by the Centers for Medicare & Medicaid Services (CMS)
- To enhance compliance with the OASIS Prospective Payment System (PPS)
- To provide a preparatory review for candidates for the **COS-C (Certificate for OASIS Specialist-Clinical)** examination
- To provide recommendations for a **smooth transition from OASIS B1 to C**
- To provide the learner with the **latest CMS documents** to facilitate researching answers to future questions and to support data collection in special situations

The ***Blueprint for OASIS Accuracy*** workshop offers effective, timely, comprehensive and supportive education necessary for the **OASIS-C transition**, directed at the **field data collectors and their supervisors**.

This training is based on the same **"no opinions - just defensible CMS facts"** approach that you have come to expect and trust from the OASIS Answers' Team. Rather than provide opinions, assumptions, or unfounded interpretations, the **"Blueprint"** presenters will provide up-to-the-minute education on what information IS available and what questions remain unanswered.

Two OASIS experts at each training offer the motivated learner the highest **quality** and most preferred OASIS training available with unprecedented access for data collection questions.

Join us in our commitment to enhancing OASIS accuracy by attending an upcoming workshop.

Save the Date!

Date:

November 18-19,
2009

Time:

8:00am – 4:00pm

Venue:

The Meadows Events
& Conference Center,
Altoona (NE Des
Moines)

Sponsor:

Iowa Alliance in
Home Care

In many cases, the OASIS Certificate and Competency Board's COS-C (Certificate for OASIS Specialist-Clinical) examination will be administered the day following the ***Blueprint for OASIS Accuracy*** training. The scope of the COS-C exam includes CMS instructions related to the OASIS time points, regulations, patient populations and item specific scoring and always tests on guidance that is current as of the testing date. Candidates will not be tested on OASIS-C until its date of implementation, and until that time candidates will continue to be tested on current OASIS-B1 items and rules.

Contact Hour Offering: Approved for TBD contact hours... CEUs will be available for this program.
